

Md. Istiak Ahamed Rahat

I have studied Business but chose web development as my profession because I believe in my technological expertise. I had a few programming courses in my BBA & also have 3+ years of professional experience. I am proficient in developing sql or nosql databases, writing and testing codes, add or update features basing on user feedback.

Work experience

Earthmoving Solution Limited (August, 2021 – Present)

Web Developer & ERP coordinator

- Contributed in designing, coding, testing and debugging websites
- Developed front-end, back-end and sql database as per needs of the company.
- Converted flutter project into React.js project.
- Trained more than 20 employees about web functions including how to make any update or change.
- Conducted research to improve and maintain standard of websites.
- Fixed bugs in existing websites and continuously improved web functionality basing on user feedback.
